QUALITY, ENVIRONMENTAL PROTECTION AND FOOD SAFETY POLICY

Main UAB "ICECO žuvis" quality directions and objectives:

- To comply with quality, environmental protection and food safety requirements of ISO 9001, ISO 14001, ISO 22000 management systems, British Retail Consortium Global Standard for Food Safety (BRC), IFS and other international standards.
- Plan, implement, control, monitor, constantly renew and improve quality, environmental protection and food safety management system.
- Increase the economy, efficiency and effectiveness of quality, environmental protection and food safety activities.
- Produce safe, high quality and sustainable products which satisfy consumers' expectations and comply with quality, environmental protection and food safety requirements set in the legal acts of Republic of Lithuania, the European Union and other countries receiving the produced products.
- Preserve the environment, its resources and systematically reduce negative impact by implementing pollution prevention measures.
- Investigate, keep themselves informed and be aware of consumer requirements for product quality and range and implement them.
- Reduce production costs and increase efficiency by systematic planning of activities, process optimisation and introducing technical innovations.
- Up-skill employees and improve working conditions.
- Expand the range of produced certified organic products.
- Ensure high quality of services provided.
- Establish new and develop existing business relationships for long-term growth and prosperity.
- Closely cooperate with business partners during implementation of quality, environmental protection and food safety policy.
- Save resources.
- Follow common and professional ethics values and attitudes and provisions of moral conduct communicating with clients, partners and employees.

I invite all employees to jointly implement quality, environmental safety and food safety objectives set by our clients, partners and company itself and constantly seek for new ones.
