MEET ICECO FISH

We are one of the fastest-growing fish processing companies in the Baltics.

Since 1995, ICECO Fish has been consistently raising the bar in quality, integrity and innovation of fish processing and is now one of the leading companies in the market.

Access to a wide variety of saltwater and freshwater fish, flexible production processes and management, extensive experience and a steady focus on taste enables ICECO Fish to successfully compete with other producers operating in the region.

Our main business areas:

1995

A fish and ice cream production company, then known as Kraitene UAB, began its operation by building two modern fish and ice cream factories. Soon, the ZIGMAS, JUNGAS, AURUM and TIRPUKAS trademarks developed by the company would occupy the largest share in the local market, making UAB Kraitene one of the largest fish and ice cream producers in the Baltics.

2011

Lithuanian capital company ICECO UAB purchased the movable and immovable property complex of Kraitene UAB and continued to build and expand on the traditions of high-quality production and trade of fish and ice cream products.

2015

As the expansion of the business continued, ICECO UAB was reorganised to separate fish production from other company operations. A new company ICECO Fish UAB was established to focus on satisfying the increasing demand for high-quality fish and seafood products.

2018

Seeking to elevate production quality to a new level, ICECO Fish UAB modernised most of its production facilities by installing high-tech packaging equipment. This allowed ICECO Fish UAB to stand out among competitors with hermetically sealed products that are easy to store, transport and consume.

We are on a mission to produce only top quality fish products and seafood, and to ensure that the existing and potential consumers use more fish in their diet

Our values:

Top quality of the products

Loyalty of our consumers

Flexibility of production

Trust of business partners

Development and professionalism of the company employees

Continuous modernisation of production

We are professionals in fish production and management

We believe that the success of our company starts with the success of our people. That's why we invest in continuous development of competencies and skills through training and team-building sessions throughout employment.

We are proud to be certified

- ✓ Every step of our production process – from raw materials to the finished product – is carefully reviewed and certified in accordance with the global requirements by an internal audit team and external audit companies.
- ✓ We are a certified manufacturer of bio-products such as ecological salmon fillet, trout and cod.
- ✓ We have implemented an integrated food safety and quality management system.
- ✓ We are able to produce MSC and ASC certified products.

WE ARE CLOSE TO YOU

We have easy access to worldwide locations by road or sea

- Based near Marijampolė (population 66 000), South-West of Lithuania
- 30 km from the Polish border
- 5 km from VIA Baltica international highway, which connects Western Europe and the Baltics
- 250 km from the largest Baltic seaport in Klaipėda

75% OF OUR
PRODUCTION
IS EXPORTED

OUR PRODUCTION

SALMON

SALMON is the No.1 fish in our product range, accounting for 63% of our total output. Over 16 years of experience and constant innovation allows us to achieve consistent quality and provide exceptional taste products to our consumers.

RANGE AND VARIATIONS:

- Cold smoked / hot smoked / marinated / salted / dried
- Salmon fillets / sliced fillets / fillet portions / cutlets
- Natural / with spices / with sauce
- Chilled / frozen

Packaging options: Vacuum laminate / MAP / bag / box / other.

WHITE FISH AND OTHER SEAFOOD

WHITE FISH AND OTHER SEAFOOD is a processing area that is increasingly growing and showing great potential. We have recently started processing fish from freshwater and closed-containment farms, adding catfish, trout, carp and other fish and seafood to our product range.

PROCESSING SERVICES:

- Filleting
- Glazing
- Chilling
- Packaging in retail packages
- White fish products (fish balls, casseroles, spreads)

HERRING

Herring ranks as second according to the production share, accounting for 21% of total output. The herring products developed by our experienced technologists are loved by our consumers for their exceptional taste and convenience.

RANGE AND VARIATIONS:

- Marinated / salted / cold smoked / hot smoked
- Fillets / fillet pieces / rollmops / salad / cutlets / with head / head off
- Natural / with spices / with sauce / with other various ingredients
- Chilled / frozen

Packaging options: MAP / vacuum bag / plastic bucket / plastic box / plastic jar / metal can.

PRIVATE LABEL PRODUCTION

PRIVATE LABEL PRODUCTS manufactured at our factory are sold by the largest retail chains in Western Europe (ALDI, NETTO, REWE, EDEKA, KAUF LAND and KRONE) and the Baltic States (MAXIMA, RIMI, IKI and NORFA). We have gained trust and loyalty of our clients by offering a wide range of salmon, herring and other fish products processing and packaging services.

PL SERVICES:

Due to our flexible production process, we are able to adapt to your requirements and needs and efficiently produce both RETAIL and HORECA products.

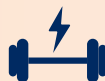

SALMON

COLD SMOKED

Salmon

Smoked
with beech
wood

High in
PROTEIN

High
OMEGA-3

1.

Our cold smoked salmon is the perfect blend between the richness of this luxurious fish and a subtle smokey aroma. Fresh Norwegian salmon is seasoned with quality salt and then smoked with natural beech wood chips. The final product is rich in protein and Omega-3, making it the perfect choice for elegant canapés or special breakfasts.

The salmon is vacuum (or MAP) sealed for extra freshness and can be packaged in an elegant carton envelope or, for the 800 g option, a decorative gift box.

Bismarck

HERRING FILLET

Our BISMARCK product line is loved for the well-balanced tanginess of marinade and flavourful, delicate bites of Atlantic herring. This product is a satisfying weeknight dinner when paired with potatoes or bread and works just as well as an ingredient in a rustic casserole. The high-quality plastic jar gives the product a signature look and displays its mouthwatering contents. The jar can be opened and closed multiple times by using screw lid.

BISMARCK herring fillet comes in 3 marinades: with cranberries, with dills and onions and in cucumber marinade with mustard.

Classical

Our herring fillet CLASSICAL is made with the utmost respect to the natural flavours of fresh fish. Fillets of raw Atlantic herring go through several rounds of selection before being naturally flavoured and covered in Canola oil to preserve freshness. Due to its richness in Omega-3 and subtle flavours, this herring is a favourite ingredient in appetisers and traditional home-made meals.

ZIGMAS herring fillet CLASSICAL comes in 3 flavours: lightly salted (a consumer favourite), with smoke aroma and with spices.
