Meet ICECO fish

We are one of the fastest-growing fish processing companies in the Baltics.

Since 1995, ICECO Fish has been consistently raising the bar in quality, integrity and innovation of fish processing and is now one of the leading companies in the market.

Access to a wide variety of saltwater and freshwater fish, flexible production processes and management, extensive experience and a steady focus on taste enables ICECO Fish to successfully compete with other producers operating in the region.

Our main business areas:

SALMON PRODUCTION

HERRING PRODUCTION

**PARTIAL PROCESSING AND PACKING
OF SEAFOOD AND WHITE FISH**

1995

A fish and ice cream production company, then known as Kraitene UAB, began its operation by building two modern fish and ice cream factories. Soon, the ZIGMAS, JUNGAS, AURUM and TIRPUKAS trademarks developed by the company would occupy the largest share in the local market, making UAB Kraitene one of the largest fish and ice cream producers in the Baltics.

2011

Lithuanian capital company ICECO UAB purchased the movable and immovable property complex of Kraitene UAB and continued to build and expand on the traditions of high-quality production and trade of fish and ice cream products.

2015

As the expansion of the business continued, ICECO UAB was reorganised to separate fish production from other company operations. A new company ICECO Fish UAB was established to focus on satisfying the increasing demand for high-quality fish and seafood products.

2018

Seeking to elevate production quality to a new level, ICECO Fish UAB modernised most of its production facilities by installing high-tech packaging equipment. This allowed ICECO Fish UAB to stand out among competitors with hermetically sealed products that are easy to store, transport and consume.

2022

A new salmon filleting equipment installed, leading to fully automated, state-of-the art processing of the salmon at the most productive and efficient manner.

We are on a mission to produce only top quality fish products and seafood, and to ensure that the existing and potential consumers use more fish in their diet

Our values:

Top quality of
the products

Loyalty of our
consumers

Flexibility of
production

Trust of business
partners

Development and
professionalism
of the company
employees

Continuous
modernisation
of production

We are professionals in fish production and management

We believe that the success of our company starts with the success of our people. That's why we invest in continuous competency and skill development through training and team-building sessions and ensure good employee benefits throughout employment.

We are proud to be certified

MSC-C-52086

We are MSC certified.
Look for the blue MSC label.

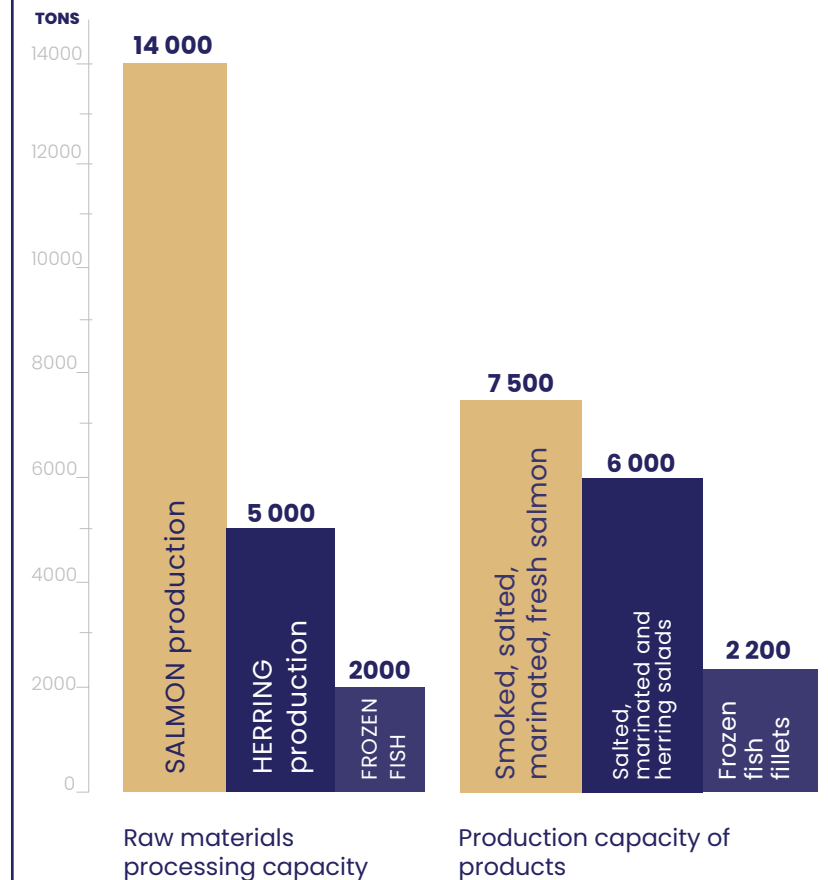

ASC-C-00498

We are ASC certified.
Look for the aqua green ASC logo.

- ✓ Every step of our production process – from raw material to the finished product – is carefully reviewed and certified in accordance with the global requirements by an internal audit team and external audit companies.

WHITE FISH AND OTHER SEAFOOD

WHITE FISH AND OTHER SEAFOOD is a processing area that is increasingly growing and showing great potential. We have recently started processing fish from freshwater and closed-containment farms, adding catfish, trout, carp and other fish and seafood to our product range.

PROCESSING SERVICES:

- Filleting • Glazing • Chilling
- Packaging in retail packages
- White fish products (fish balls, casseroles, spreads)

PRIVATE LABEL PRODUCTION

PRIVATE LABEL PRODUCTS manufactured at our factory are sold by the largest retail chains in Western Europe (COLRUYT, DELHAIZE, ALDI, NETTO, REWE, EDEKA, KAUF LAND and KRONE) and the Baltic States (MAXIMA, RIMI, IKI and NORFA). We have gained trust and loyalty of our clients by offering a wide range of salmon, herring and other fish products processing and packaging services.

PL SERVICES:

Due to our flexible production process, we are able to adapt to your requirements and needs and efficiently produce both RETAIL and HORECA products.

SALMON

COLD SMOKED

Smoked
with beech
wood

High in
PROTEIN

High
OMEGA-3

Our cold smoked salmon is the perfect blend between the richness of this luxurious fish and a subtle smokey aroma. Fresh Norwegian salmon is seasoned with quality salt and then smoked with natural beech wood chips. The final product is rich in protein and Omega-3, making it the perfect choice for elegant canapés or special breakfasts.

The salmon is vacuum (or MAP) sealed for extra freshness and can be packaged in an elegant carton envelope or, for the 800 g option, a decorative gift box.

1.

With a firm texture and a silky taste, our salted salmon is the star ingredient in canapes appetizers, salads and spreads. Fresh Norwegian salmon is seasoned with quality salt to reveal its natural flavour and vacuum (or MAP) sealed for extra freshness without any preservatives. Rich in Omega-3 and protein, this salmon is a popular choice in various healthy recipes.

Our salted salmon is available as fillets with skin or in thin slices with skin removed.

Classical

Herring

Our herring fillet CLASSICAL is made with the utmost respect to the natural flavours of fresh fish. Fillets of raw Atlantic herring go through several rounds of selection before being naturally flavoured and covered in oil to preserve freshness. Due to its richness in Omega-3 and subtle flavours, this herring is a favourite ingredient in appetisers and traditional home-made meals.

ZIGMAS herring fillet CLASSICAL comes in 3 flavours: lightly salted (a consumer favourite), with smoke aroma and with spices.

I seafood Creams

ZIGMAS caviar spreads are made with caviar that is well known for being rich in protein and valuable amino acids. Fresh caviar is mixed with flavourful ingredients to create a creamy spread that is perfect for gourmet sandwiches or as a ready-to-eat dip.

Shrimp cream with avocado is the perfect blend of seafood and vegetables. Avocado is a soft-textured, nutrient-enriched fruit that perfectly complements the taste of the shrimp. This combination gives the spread a memorable signature taste.

Our spreads can be used to make breakfast toast, snacks or as a dip with vegetable or bread sticks. Excellent for breakfast, perfect for dinner!
